

I am a Lighting Cameraman based in the North West with over 30 years' experience, working in Commercials, Documentaries and Installation Media worldwide.

My early background in advertising stills photography has given me great attention to detail, lighting and composition skills. I love what I do and still have the same passion I had when I started.

I am equally at home as a DoP in the studio within a large crew, as I am in far flung locations working alone.

Highly technical, I have worked with virtually all professional cameras and own a range of equipment, including a Sony FS7 and LED lighting.
